THE VERGE

Contact tracing programs have to work with local communities to be successful

People won't pick up the phone if they don't trust the person on the other end

By Nicole Williams | Jun 10, 2020, 12:17pm EDT

NATIONAL GEOGRAPHIC

Contact tracing for COVID-19 will be the most complex health investigation ever

To halt the spread of the deadly virus, health experts say states need to hire contact tracers to quickly hunt down everyone who's been exposed.

BY CRAIG WELCH

PUBLISHED MAY 24, 2020

Case investigation and contact tracing are the most important tools currently available to protect the health of our communities and our economy from COVID-19 and future infectious diseases.

Case Investigation and Management

- ✓ Manage caseloads and assign team members to cases manually or based on criteria or let team members pull from a common backlog
- ✓ Create custom roles such as Case Investigator, Contact Tracer, Care Resource Manager, or anything else
- ✓ Prioritize cases
- ✓ Track and report on symptoms, test results, quarantine or isolation, pre-existing conditions, and clinical interventions
- ✓ Elicit information about movements and contacts during the contact elicitation window
- ✓ Create customizable interview templates with questions tailored to local needs and conditions
- ✓ Built-in privacy and consent safeguards
- ✓ Visually identify clusters and outbreaks with maps
- ✓ Keep records of case management and contact tracing activities
- ✓ Role-based dashboards you can customize yourself
- ✓ Easily create custom reports and charts on the fly
- ✓ Click a button to send SMS, e-mail, or recorded voice notifications (optional)
